PROJECTS

Fairweather Adventures - https://melaniecisler.github.io/FairweatherAdventures/ | https://github.com/melaniecisler/FairweatherAdventures
The Fairweather Adventures app solves the real world problem for short notice travelers who are looking for National Park information and also want to know the current weather and 5-day forecast for their chosen park adventure.

- Led a team of five in creating a full-stack web app that integrates data received from multiple server-side API requests using Open Weather Map API and National Park Services API.
- Tools Used: HTML, CSS (Bulma), JavaScript, server-side APIs.

Workout Tracker - https://desolate-castle-89952.herokuapp.com/ | https://github.com/melaniecisler/workout-tracker

The workout tracker app solves the real world problem of keeping track and charts of your favorite cardio and resistance workouts.

- The app integrates a Mongo database with a Mongoose schema and handles routes with Express.
- Tools Used: HTML, CSS, JavaScript, MongoDB, Mongoose, Express, charts.js

Online Shopping App - https://floating-lowlands-34709.herokuapp.com/ | https://github.com/ayshasanyang/Online-Shopping-App
This project creates an application for online vendors to post their products to an Online Shopping Store.

- Led a team of five in creating a full-stack web app that uses JavaScript and MySQL to create, update, edit and delete products from our vendor application, storing product information in our Database.
- Tools Used: JavaScript, MySQL2, Sequelize, Node, Express, Handlebars, Passport, Travis CI, Heroku (deployment).

EXPERIENCE

G4S   **Monticello, MN**
Nuclear Security Officer   **Mar 2019 - Present**
